

Timothy Holmes

Full Stack Developer

Experience

Homes.com

Experienced Developer

May 2017 - Present

- Developed API to support site's search functionality, supporting thousands of home searches per minute
- Lead code review and pair programming sessions for mentorship of junior developers
- Implemented social platform for collaborative real estate searching, MyHomes, servicing hundreds of users
- Designed full stack application for easy monitoring of audits and data jobs related to MyHomes
- Developed internal libraries to centralize repeated code patterns including logic for: paginated requests, internal link generation, and micro-service health checks

Associate Developer

April 2016 - May 2017

- Developed and launched new flagship site, decreased response times by 400%
- Implemented Lead Concierge product, an on-demand lead verification system, increasing recurring revenue by \$13,000 in its first quarter
- Identified and presented performance bottlenecks of the web application to business stakeholders
- Created retry queue system for messaging infrastructure to reduce lost ad impressions

StarChase LLC

Web Development Intern

May 2015 - April 2016

- Developed prototype application for tracking live GPS data
- Created internal development tools: GPS module simulator, GPS battery health reporter, and task management application
- Served as webmaster to company site
- Managed Wordpress website for partner organization Pursuit For Change
